Netwrix 1Secure

Safeguard your Microsoft 365 environment and file servers with our easiest-to-use SaaS solution

Keep abreast of the changes in your IT infrastructure and assess the risks that threaten your organization. Netwrix 1Secure is designed specifically to offer immediate value without requiring cumbersome deployment and lengthy training.

ACCELERATE INCIDENT DETECTION AND RESPONSE

Improve your security posture by tracking critical changes in your environments, so you can respond before any serious damage is done.
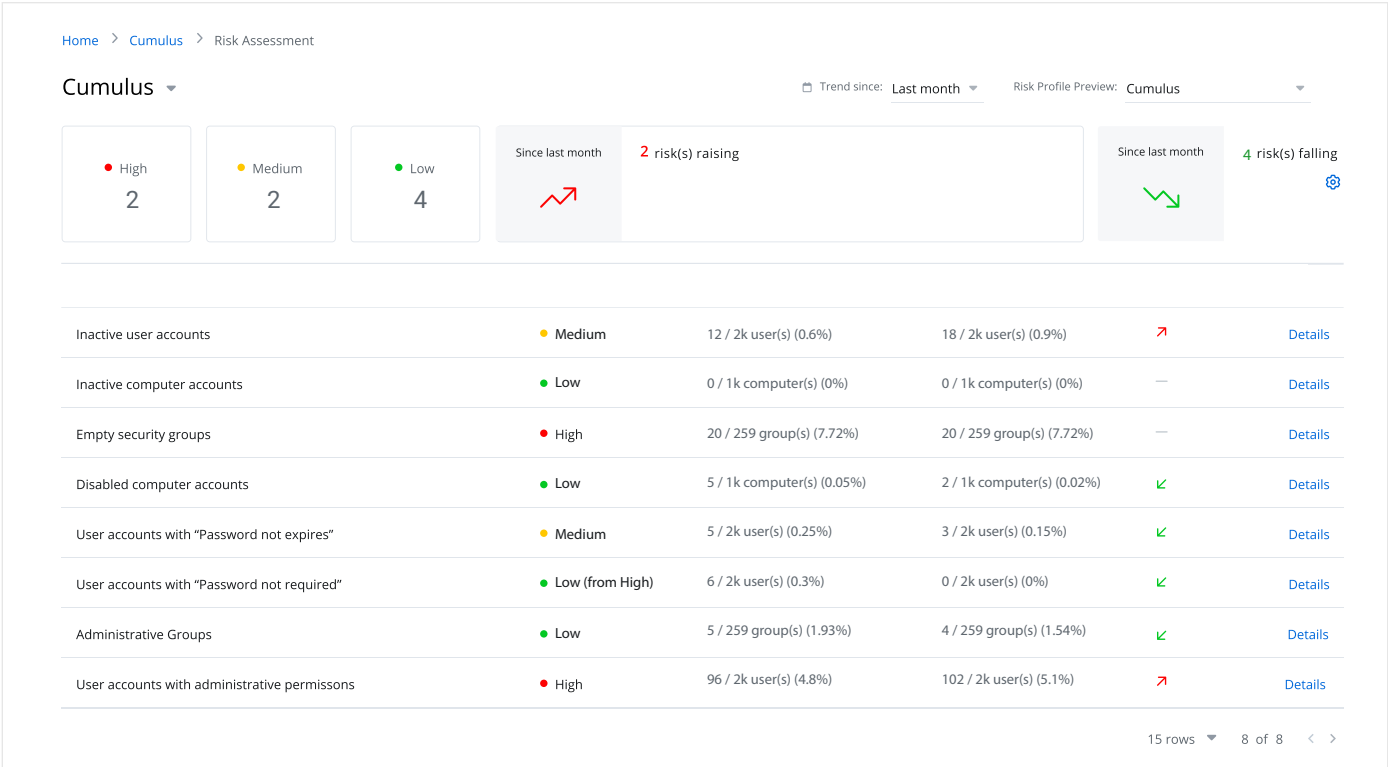

EVALUATE AND MITIGATE RISKS

Diagnose the risks facing your security infrastructure, identify their trends, and lower them on a regular basis.

OPTIMIZE YOUR INVESTMENT

Extract value from your investment instantly by deploying Netwrix 1Secure in minutes, and not wasting a fortune on hardware and 3rd party licenses.

Key features

ALERTS ON CRITICAL CHANGES FOR MICROSOFT 365 ENVIRONMENTS

Be notified promptly about suspicious activities in Active Directory, Microsoft Entra ID (formerly Azure AD), SharePoint Online, Exchange Online, and file servers, so you can respond in time to prevent serious damage. Customize the alerts based on your needs.

EASY-TO-UNDERSTAND REPORTS

Be ready whenever the management or auditors want to know more about your security posture. Choose from a wide range of easy-to-read predefined reports or create your own reports.

COMPREHENSIVE ACCOUNT MONITORING

Ensure security and business continuity by staying on top of your AD accounts, such as which ones have been enabled, disabled, deleted, or locked out, and which ones had their passwords changed.

RISK ASSESSMENT

Diagnose your security posture, identify the most concerning risk factors - such as accounts that require no password or empty security groups - and high-risk users, and lower the overall risk level of your organization.

SIMPLE PERMISSIONS CHANGE AUDITING

Spot unauthorized privilege elevation with all the key facts about changes made to your security groups, including who made the change, the date and time it occurred, and exactly what was modified.

ACTIONABLE DASHBOARDS

Instantly know what needs your immediate attention with intuitive dashboards that provide a bird's eye view of the state of your Microsoft 365 environments or file servers.

Why Netwrix?

SAAS OPERATION

Gain instant access to new product features every month without needing lengthy upgrades, downloading packages, or applying patches.

INTERACTIVE SEARCH & ADVANCED FILTERING

Slash the time and effort required to investigate incident details and resolve user issues. Filter on properties like forwarding email address, file size, or user account control to get the information you need in seconds.

EASY ECOSYSTEM INTEGRATIONS

Keep your business workflows intact while enriching your systems with valuable information by seamlessly integrating Netwrix 1Secure with your professional services automation (PSA) tools.
