# STEALTHAUDIT® FOR BOX

Comprehensive Box auditing and monitoring for security and compliance
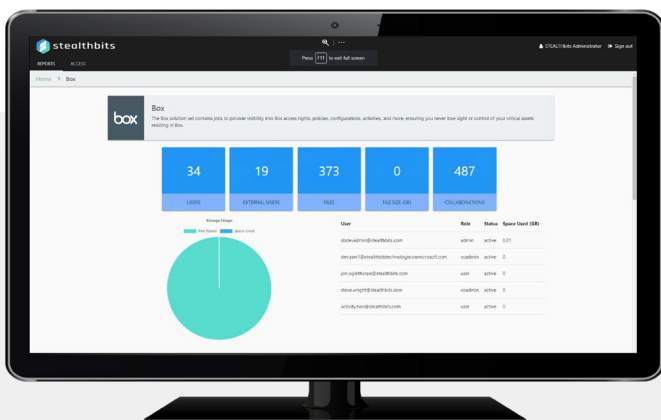

stealthbits
NOW PART OF netwrix

Over the years, Box has become one of the world's most popular enterprise content management platforms. Adopted by over 41 million users and 85,000 businesses, Box accounts are brimming with sensitive files that are only a click away from virtually any internet-connected device.

StealthAUDIT for Box provides deep visibility into Box access rights, policies, configurations, activities, and more, ensuring you never lose sight or control of your critical assets.

## StealthAUDIT FOR BOX DELIVERS

- **Box Access & Permissions Auditing** – Understand effective access rights to each Box repository, file-level permissions, along with valuable views around inactive access rights that can be revoked to ensure and maintain alignment with least privilege principles.

- **Box Activity Monitoring** – Monitor over 80 different event types for complete visibility into every user and enterprise event.

- **Box Sharing Configuration** – Report on shares by team and obtain sharing policy and owner information on files and folders.

- **Box Content Analysis** — Break down Box content by file type, classification, and size. Identify stale content that can be removed or archived to reduce risk.

- **Preconfigured Reporting** – Hit the ground running with preconfigured reports focused on group and user access, content ownership, suspicious activities, usage statistics, and more.

- **Workflow Composition** – Leverage the full power of the StealthAUDIT Management Platform to automate processes in their entirety, including integration with 3rd party solutions and internal workflows, soliciting end user feedback, and more.

- **Compliance Fulfillment** – Demonstrate compliance with virtually any standard by automating the generation of compliance artifacts and establishing regular reviews of access rights and data.
