

GDPR CRASH COURSE

Gartner predicts over 50% of companies affected will not be in full compliance by the end of 2018

WHO

All EU member states must comply with GDPR, plus any international organizations that trade within the EU.

Presence

Customers

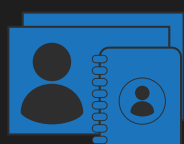

Suppliers

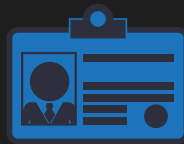

Employees

WHAT

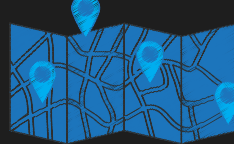

Applies to 'personal data' which is information relating to EU citizens that can be directly/indirectly identified.

Name

ID Number

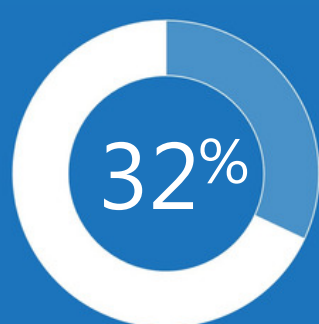

Location

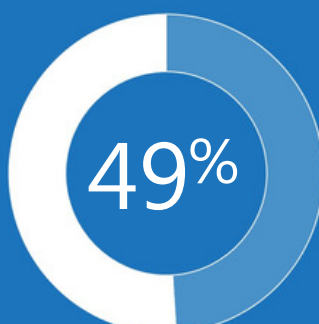

IP Address

EU GDPR REPORT 2017

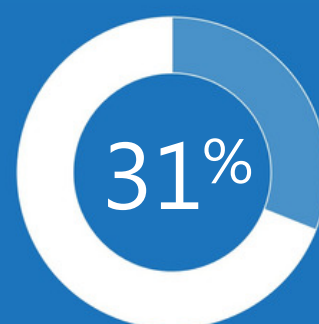

INFOSEC COMMUNITY SURVEY WITH 390,000+ MEMBERS

Said primary challenges with GDPR policies are lack of budget

Prioritized making an inventory of user data & mapping it to protected categories

Plan to design apps & databases with privacy enabled by default

YOU SHOULD BE ABLE TO ANSWER DATA SUBJECT ACCESS REQUESTS

- What personal data do you have about me, how accurate is it and will you correct inaccuracies?
- What data collections and uses am I consenting to?
- What types of profiling and analysis are you conducting with my data?
- Can you remove all my personal data?

HOW

If your organization is a part of the 50% of companies Gartner predicts will not be fully in compliance by the end of 2018, here are the 5 things you should focus on first:

1

Appoint a Data Protection Officer

2

Locate all EU Citizen Data Throughout Your Systems

3

Apply a Least Privilege Model to the Data

4

Generate Compliance Artifacts Surrounding All Processing Activities

5

Prepare For Data Subjects Exercising Their Rights
